

Cam Followers for Canmakers

Increase Production — Reduce Costs

Bearings designed specifically to increase productivity and reduce maintenance downtime in canmaking machinery.

Cam Followers for Canmakers

Increase Production — Reduce Costs

CRBC 1 5/8-14 for Belvac Neckers OEM REF. # 2700693

- Roller follower design is superior to the proprietary OEM part — and available now from your local distributor.
- Extended replacement cycle — RBC Roller® cam followers last up to 5 times longer.
- Distributor stock reduces plant inventory carrying costs.

CRBC 1 3/4-18 for Belvac Trimmers OEM REF. # C20046

- Eliminates re-lubrication requirement which means greater machine uptime and higher productivity.

CRBC 1 1/2 for Belvac Trimmers OEM REF. # C20043

- Eliminates re-lubrication requirement which means greater machine uptime and higher productivity.

F76115 for Belvac Trimmers OEM REF. # 102004-CC52

- Replaces proprietary OEM part
- Features RBC HexLube® for ease of re-lubrication
- In stock, available for shipment today

CRBY 1 3/4 OH for ANC Neckers

- Roller cam follower design delivers longer operating life.
- Lower mass outer ring protects machine cams from damage due to skidding that is prevalent in outdated needle cam followers.
- Available now from your local distributor.

B16EL35 for Standun Bodymakers

- RBC exclusive extended inner ring design replaces 10SF16 bearing and two proprietary spacers.
- Completely eliminates production time lost searching for parts dropped into the gearbox!
- Cost-savings and convenience.

F75394—for Rutherford Decorators & Basecoaters OEM REF. # CD3-40-44

- Roller follower design delivers longer life, reduced operating temperature and extended lubricant life
- Light weight outer ring reduces skidding in the cam path of high-speed machines.
- Superior to the proprietary OEM part — and available now from your local distributor.
